Asphalt Repaving Project Phase 2
Courtyard Concrete Replacement Project
H Building Renovation Construction Project

Triton College is nearing the start of the second phase of a multi-year asphalt pavement replacement project on the west campus. This phase will be broken up into 4 parts. This 2nd phase includes the re-pavement of the North Lot 6, the Circle Drive in front of the A Building, the South Lot 1, Veterans Street, and South Interior Road. In addition, this project includes the replacement of all the concrete walkways in the courtyard. (See map.)

PART 1 - Monday, March 3, 2014 – Tuesday, July 1, 2014
This part involves the complete replacement of the parking lot in the North Lot 6.
There will be NO access to the north parking lot 6 during this part of the project. The Palmer Street entrance will remain open during the entire project. The north entrance will also be open during the entire project; however, we encourage staff and students to use the south entrance during this time as we are anticipating construction traffic.

This part involves the complete replacement of the Circle Drive in front of the A Building and Veterans Street.
There will be NO access to the Circle Drive or the Visitor Lot, or Veterans Drive during this part of the project. The South Hemingway Entrance will be open during the entire project.
The Pace Bus drop-off/pickup location at the front of the B Building will be relocated to the front of the I Building (Cernan Center) during this part of the project.

PART 3 - Sunday, June 1, 2014 – Friday, August 15, 2014
This part involves the replacement of all the concrete walkways in the Quad/Mounds area.
This area will be closed during this period. All sidewalks surrounding the mounds will be open for use.

PART 4 - Thursday, July 10, 2014 – Friday, October 31, 2014
This part involves the complete replacement of the parking lot in the South Lot 1 and South Interior Road.
There will be NO access to the South parking Lot 1 or South Interior Road during this part of the project.

We appreciate your patience as we continue to enhance our campus for the safety of our students and the Triton College community.
